## FABRIC COMPOSITION

Outer coating:	53% PU 47% PA
Lining composition:	100 % PE

## PARTS

Front zipper:	1 coil zip	Cuff bands:	10 mm wide white elastic band
Collar fastners:	3 plastic snaps	Elastic on hood:	10 mm wide white elastic band
Front fastners:	5 plastic snaps	Velcro on pocket lining:	25 mm wide velcro strip
Bottom drawstring:	cotton cord		

## DESCRIPTION

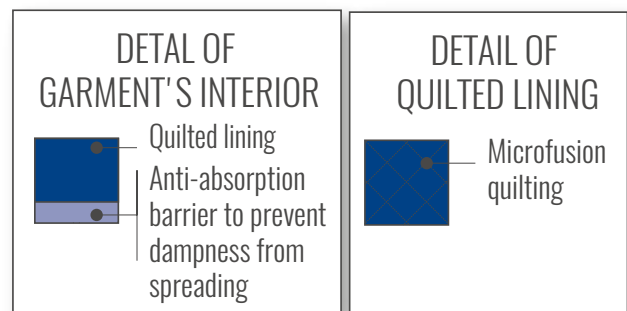

This PPE corresponds to a quilted waterproof anorak.

This hip-length garment consists of two straight front panels. The back is plain and consists of a single piece. The single-piece sleeves extend to shape the garment's front and back yokes. The sleeves have elastic windbreaker cuffs. The high collar houses a roll-away hood (with elasticated front edge) that tucks into the back and fastens with three snaps.

It has two reach-through outer pockets with storm flaps that aesthetically define the garment's waist on the front. The lining includes a patch pocket with velcro fastening.

The front fastens with a zipper and 6 mm wide placket that fastens with five snaps. The bottom of the garment adjusts with a drawstring for a closer fit. The garment is fully lined and quilted, except for the hood, and to prevent the lining from getting damp it is equipped with anti-absorption barriers manufactured in the same fabric as the outer shell. These barriers are located on the bottom of the garment and at the end of the sleeves.
