Lining composition: 100% PE

PARTS

Reflective materials:	3M Scotchlite reflective bands	Cuffs:	elasticated knit
Front zipper:	reversible zip	Collar fastener:	25 mm velcro strip
Cuff zippers:	coil zips		

DESCRIPTION

This PPE corresponds to a vest manufactured in fluorescent yellow knit fabric and quilted with blue lining. It has one thermo-fixed horizontal retro-reflective band around the torso and one band over each shoulder that join with the horizontal one from front to back.

The vest has a straight collar that consists of two strips that are yellow on the outside and blue in the interior that are sewn together and attached to the garment's velcro-fastened neckline.

The back is straight and consists of one single panel.

The two front panels are joined down the middle with a zipper and to the back down the sides. Each front panel has a pocket with a storm flap.

The garment's interior is fully quilted and has a patch pocket with a horizontal slit on the left, at chest height, that fastens with a velcro strip.

Two long sleeves can be attached by means of zippers. The single-piece sleeves are manufactured in blue quilted material and have blue Lycra knit cuffs.

TYB066
