FABRIC COMPOSITION

Fabric composition:	100% PE
Lining composition:	100% PE

PARTS

Front zipper:	1 double slider zip	Hood drawstring:	cotton cord
body warmer insert zipper:	2-way zip	Hood end caps:	2 plastic end caps
Collar fastners:	3 plastic snaps	Reflective bands:	3M Scotchlite
Front fastners:	5 plastic snaps	Seam seal ribbon	
Cuff bands:	20 mm wide white elastic band		

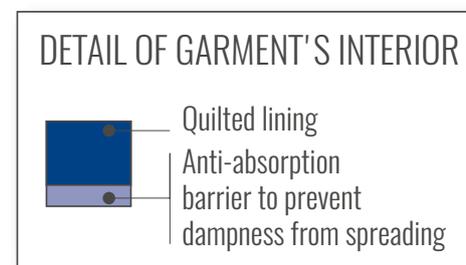

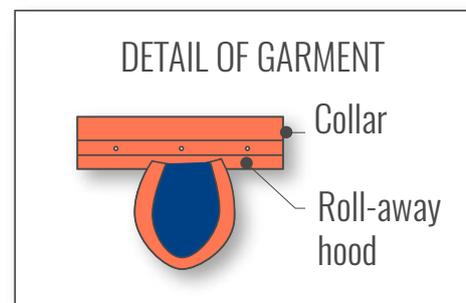

DESCRIPTION

This PPE corresponds to a waist-length, waterproof bicolour lined jacket. In compliance with standard UNE EN ISO 20471:2013 it has two thermo-fixed horizontal retro-reflective bands around the torso and sleeves.

The garment consists of two front panels that fasten down the front with a zipper. The left front panel has a placket that covers the zipper all the way down and fastens with five snaps. The back is plain and consists of only one panel. Both sleeves are a single piece. It has a double cuff from the same material, with windbreaker elastic cuffs.

The collar includes a roll-away hood that fastens with three snaps. This system makes it possible to conceal the hood that adjusts with a drawstring. It includes two reach-through pockets with protective flaps that aesthetically define the waist on the front. The garment is fully lined with a satin type fabric. The interior includes a 2-way zipper to insert a body warmer if necessary.
